

Standup - 04/10/2022 Tuesday

1. What have you worked on since the last update?
 2. What will you be working on for the next few days?
 3. Any blockers?
-

Group Member B

- *The past few days I...* managed to get US#3 done - view courses related to skill. Blocked/left with needing to grey out courses that staff has completed or is currently taking
- *The next few days I...* will work on US#15.
- Blocked by US#4 Where staff needs to be able to add course into LJ. Need to be able to grey out courses that staff has completed or is currently taking

Group Member K

- *The past few days I...* managed to get US#11-HR create new skills done
- *The next few days* doing US#16 HR assign a skill to role job
- No blockers

Group Member E

- *The past few days* I worked on the user story #12 and updated the UI to match the figma. Added the pagination feature into the story.
- *The next few days* I will start on the user story #10
- No blockers

Group Member X

- *The past few days* I worked together with Group Member E and check up on the progress of the user stories, and understood the requirements better
- *The next few days* I work on the search bar for view skills.
- No blockers

Group Member C

- *The past few days* I... have been coding out the frontend for the respective pages (just the aesthetics)
- *The next few days* I... will complete the soft deletion of existing skills
- No blockers

Wan Ning

- The past few days I... have been discussing with Group Member C how to code out US#4 and the fixes to be done to the previous app routes we have created

- The next few days I... will update the app route such that only job roles that have not been selected to create a learning journey and those that are of active job role status will be displayed in ViewRoles Staff page
- No

Standup - 06/10/2022 Thursday

1. What have you worked on since the last update?
 2. What will you be working on for the next few days?
 3. Any blockers?
-

Group Member B

- The past few days I... Managed to get US#15 where HR can update the skill assigned to a specific Job Role.
- The next few days I... Will try to discuss with team on whether I can continue with US#2 and 3 with mock data. Will try to help others too.
- No blockers

Group Member K

- The past few days I... managed to get US#11-HR create new skills done
- The next few days doing US#16 HR assign a skill to course
- No blockers

Group Member E

- The past few days I worked on user story #12. Finished US #10 and added a feature to filter the shown result based on the search bar inputs.
- The next few days I will continue working on the user story #12
- There was a bug in the routing in app.js that I was unable to troubleshoot. Resulting in the deletion not passing to the database

Group Member X

- The past few days I did pair programming with Group Member E for the soft delete of job roles.
- The new few days I will continue working on the user stories
- There was a bug in the soft delete code

Group Member C

- *The past few days* I... will complete the soft deletion of existing skills
- *The next few days* I... complete it
- No blockers

Wan Ning

- The past few days I... have updated the app route such that only job roles that have not been selected to create a learning journey and those that are of active job role status will be displayed in ViewRoles Staff page
- The next few days I... will work on the app route for creating LJ entry in the LJcourseAssociation table when users add courses to the selected job roles.
- No blockers

Standup - 01/10/2022 Saturday

1. What have you worked on since the last update?
 2. What will you be working on for the next few days?
 3. Any blockers?
-

Group Member B

- The past few days I... did not do much.
- The next few days I... Work on the blocked US#3.
- No blockers

Group Member K

- The past few days I... managed to get US#11-HR create new skills done
- The next few days doing US#16 HR assign a skill to course
- No blockers

Group Member E

- The past few days I worked user story #12. Group Member B managed to find where the bug was. Turns out the refactoring of [app.py](#) resulted in routing problems to the database.
- The next few days I will further look at the code to see
- No blockers.

Group Member X

- The past few days I tried to figure out the bug in the code.
- The new few days I search up on how to fix it.
- No blockers

Group Member C

- *The past few days* I... completed the soft deletion of existing skills and HR updates skills
- *The next few days* I... will work on US #4

- No blockers

Wan Ning

- The past few days I... have created the app route for creating LJ entry in the LJcourseAssociation table when users add courses to the selected job roles.
- The next few days I... will update curling on my progress and seek help.
- Yes there are issues with retrieving and sending the required data from the front end to the back end.
